Response to Non-Responsive Arguments

1. Claims 1-22 remain rejected. Applicant's response is held non-responsive.

2. Applicants have attempted to respond to an office action in which they have admitted to not having received the prior art CWPA(98). Applicant failed to avail themselves of the standard practice of requesting the prior art citation, listed on the USPTO 892, and asserted as the base teaching reference in a formal rejection under 35 U.S.C. 103 against the Applicant's claims. If applicant had followed the standard practice and requested this key reference and a restart of the response time they would have been afforded such, specifically a 39 day grace period. Nor did Applicant contact the primary examiner in an attempt to resolve the alleged mailing mistake. In response to applicant's complaints regarding not receiving the prior art citation, the primary examiner is providing another copy of the CWPA(98) reference. However, Applicant should have followed the accepted protocol and practice and not attempt to provide an empty response based upon art allegedly not in their possession.

3. The reply filed on January 13, 2004 is not fully responsive to the prior Office Action because:

Applicant's arguments fail to comply with 37 C.F.R. 1.111(b) because they amount to a general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references.

Applicant's arguments do not comply with 37 C.F.R. 1.111(c) because they do not clearly point out the patentable novelty which he or she thinks the claims present in

0400

Art Unit: 2123

view of the state of the art disclosed by the references cited or the objections made. Further, they do not show how the amendments avoid such references or objections.

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986).

4. Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 C.F.R. 1.136(a).

The date on which the petition under 37 C.F.R. 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to William Thomson whose telephone number is (703) 305-0022. The examiner can be usually reached between 9:30 a.m. - 4:00 p.m.
